PG Diploma Course in Environmental Impact Assessment (EIA) (PGDEIA)

Weekend Program

Environmental impact assessment (EIA) has become an increasingly integral part of the industrial and commercial development process in relation to the delivery of sustainable development. The PGDEIA aims to develop a sound appreciation of the importance of conducting EIA, together with an understanding of the techniques by which this can be achieved. In conjunction with an appreciation of what is happening globally in relation to EIA. Also the environmental assessment of plans and programmes by SEA is considered.

Following are the key contents of the diploma program:

- Introduction to Environmental Impact Assessment
- Introduction to Strategic Environmental Assessment
- Environmental Impact Assessment legislation
- Environmental Impact Assessment procedures
- Strategic Environmental Assessment procedures
- Public participation in Environmental Impact Assessment
- Assessment of Impacts on water, land, air, biodiversity, people etc
- Challenges and future of EIA and SEA

Target Group

PGDEIA targets intending and existing environmental management professionals seeking to increase or refresh their knowledge and understanding of the EIA process. The diploma program is suitable for:

- Individuals involved in Environmental Management
- Individuals seeking to gain knowledge about the main processes of EIA
- Individuals interested to pursue a career as EIA Practitioners
- Environment Consultants, Engineers, Manager, EHS Officer
- Professionals preparing for conducting EIA, IEE and EMP

Eligibility

- Graduation in any stream.
- Work experience, although not necessary, but of a minimum of two years in the relevant field is desirable.
