PG Diploma Course in Occupational Health, Safety & Environment (OHSE) (PGDOHSE)

Weekend Program

The PG Diploma Course in Occupational Health, Safety & Environment (PGDOHSE) recognises the increasing demand from both industry and enforcement bodies to integrate occupational health, safety and environmental management issues. The course is designed to enable students to identify hazards, evaluate risks, and suggest control measures in a range of situations. The comprehensive syllabus recognises the importance of technical and practical skills as well as the need for good management skills and critical thinking.

Following subject areas are covered in the diploma program:

- Health, Safety and Environment Management (online)
- Assessing and Controlling Workplace Health
- Environmental Protection and Climate Change
- Research Methods (MSc students only)
- Health, Safety and Environment Leadership (online)
- Organisational Factors for Health and Safety
- Chemical and Biological Incident Management
- Safety Technology

Course Objectives & Learning Outcome

This course aims to teach the science and practice of occupational health, safety and environmental control in the context of a team approach. On successful completion of the programme, students should be in a position to identify, evaluate and provide solutions to a wide range of health, safety and/or environmental problems, and function well in a multi-disciplinary team.

On completion of this course the students will be in a position to identify hazards, evaluate risks, and suggest control measures in a range of situations. These skills are valued internationally by a range of employers including consultancies, commercial companies, government bodies and Non-Governmental Organisations.

Eligibility

- Graduation in any stream.
- Work experience, although not necessary, but of a minimum of two years in the relevant field is desirable.
